

Danilo Monarca,

R. Bedini, M. Cecchini, A. Colantoni, F. Colopardi, S. Di Giacinto, G. Menghini

Universities and research centers in Italy

In Italian University the Scientific sector involved with agricultural machinery, farm mechanization, operational safety and health is the SSD

AGR/09 - Agricultural Mechanization

07 / C - MACROSECTOR - AGRICULTURAL, FORESTRY AND BIOSYSTEMS ENGINEERING

Strong interdisciplinarity with all the Agrarian scientific sectors (and not only ...)

AGRICULTURAL, FORESTRY AND BIOSYSTEMS ENGINEERING

Universities and research Centers in Italy

An impressive *task force*:

- 21 Universities
- Several research institutes

Italian Society of Agricultural Engineering

ASSOCIAZIONE ITALIANA DI INGEGNERIA AGRARIA

Mission:

- a) to contribute in technical and scientific issues of general interest in Biosystems Engineering;
- b) to foster relationships between researchers, stakeholders and operators;
- c) to promote the development and research in the field of Agricultural Engineering;
- d) to encourage the training of technicians;
- e) to organize activities and events;
- f) to take care of links with Italian and foreign institutions.

THE LABORATORY OF ERGONOMICS AND OCCUPATIONAL SAFETY AND HEALTH

Tuscia-Ergolab deals with the study of ergonomics and safety of machinery and work environments, the detection of physical, chemical and biological agents, with particular reference to agricultural, forestry and agro-industrial workplaces
